

§ 1416.504

7 CFR Ch. XIV (1–1–14 Edition)

§ 1416.504 Payment calculation.

(a) Payments are calculated by multiplying the number of affected acres by the payment rate times the producer's share of the crop. The payment rate for insured or NAP covered tropical fruit is a flat rate of \$5000 per acre. The rate for uninsured or acreage without NAP coverage is \$4750 per acre. The total payment is subject to the limitations in § 1416.6.

(b) In addition to the prohibition in § 1416.6(g), producers cannot receive duplicate benefits under this subpart and subpart H of this part, Hurricane TAP, for the same loss.

§ 1416.505 Availability of funds.

(a) In the event that the total amount of eligible claims submitted by eligible tropical fruit producers under this subpart and subparts D, E, and G exceeds \$95 million, each payment to an eligible tropical fruit producer shall be reduced by a uniform national percentage, as determined by CCC.

(b) Such payment reduction shall be applied after imposition of applicable per person payment limitation as provided in § 1416.6.

Subpart G—Nursery Disaster Program

§ 1416.600 Applicability.

This subpart sets forth the terms and conditions applicable to the Nursery Disaster Program.

§ 1416.601 Eligibility requirements.

(a) Commercial ornamental nursery and fernery producers are eligible for assistance for inventory losses for each nursery or fernery operation and clean-up costs. For a nursery to be considered a commercial nursery, it must be certified by the appropriate state agency. Eligible producers include producers of the following types of nursery stock and such stock as announced by CCC:

(1) Deciduous shrubs, broadleaf evergreens, coniferous evergreens, shade and flowering trees.

(2) Stock for use as propagation in a commercial ornamental nursery operation.

(3) Fruit or nut seedlings grown for sale as seed stock for commercial orchard operations growing fruit or nuts.

(b) Eligible nursery inventory does not include:

(1) Edible varieties.

(2) Plants produced for reforestation purposes or for the purpose of producing a crop for which RMA does not provide insurance, or for which CCC does not provide assistance under NAP.

(c) Losses will be determined on an individual-nursery basis. Production loss from one nursery will not be offset by production from another nursery operated by the same applicant.

§ 1416.602 Application process.

(a) Producers wishing to receive benefits must submit a completed application and report of acreage identifying the geographic location, number of acres in the disaster-affected area, the inventory value before the hurricane, and the inventory value after the hurricane to their local FSA Service Center at the time an application for payment is being filed as provided in § 1416.5. The value of the inventory is the producer's wholesale price list, less the maximum customer discount they provide, not to exceed the prices in RMA's "Eligible Plant List and Price Schedule."

(b) Applicants must certify and provide adequate proof that the losses and expenses incurred to eligible nursery crops were a direct result of the applicable hurricane during the disaster period.

§ 1416.603 Payment calculations.

(a) Payments are calculated by multiplying the difference between the beginning and ending inventory value times 25 percent times the producer's share of the loss. The payment for production loss is subject to the payment limitation and AGI provisions.

(b) Producers are also eligible for a payment of \$250 per acre for debris removal and associated costs from hurricane damage if they can document that these costs were equal to or greater than \$250 per acre. None of the payment for cleanup is subject to the payment limitation and AGI provisions.
